CAREER OBJECTIVE

B.Tech Computer Science and Engineering student with an 8.4 CGPA and hands-on exposure to AI/ML, Large Language Models (LLMs), LLM fine-tuning, frontend development, API integration and responsive web applications. Seeking opportunities to apply programming, problem-solving and development skills to real-world projects.

ACADEMICS

QUALIFICATION	INSTITUTE	BOARD/UNIVERSITY	YEAR	% / CGPA
B.Tech - CSE	University of Science & Technology Meghalaya	USTM	Pursuing	8.4 CGPA
XII	Shrimanta Shankar Academy	CBSE	2023	78.6%
X	Little Star Senior Secondary School	MBOSE	2021	81.3%

TECHNICAL SKILLS

Programming Languages	C, C++, Python, JavaScript
Web Development	HTML5, CSS3, Tailwind CSS, Bootstrap, Node.js, Express.js, MongoDB, Mongoose
AI/ML	Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), LLM Fine-Tuning, QLoRA, Dataset Preparation
Core Computer Science	Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming (OOP)
Tools/ Platforms	Git/GitHub, Google Colab, Gemini API

INTERNSHIP EXPERIENCE

AI/ML Intern IIT Guwahati (July - August 2026)	- Worked on an AI-based Nutritionist application using Large Language Models (LLMs) to support nutrition-related information and conversational assistance. - Prepared and processed nutrition-focused datasets for model training and LLM fine-tuning.
---	---

	• Fine-tuned an LLM to improve its understanding of nutrition-related queries, contextual responses, and conversational interactions. • Evaluated model responses and refined training data to improve response quality, relevance, and consistency. • Worked on integrating the fine-tuned model into the application workflow for AI-powered nutrition conversations.
Frontend Development Intern Cognifyz Technologies (17 Dec 2024 - 17 Jan 2025)	• Developed interactive and responsive web pages using HTML, CSS, JavaScript and Tailwind CSS, including a Tic-Tac-Toe application. • Integrated APIs to fetch and display dynamic data within web applications. • Built responsive UI components using Bootstrap and completed advanced frontend tasks involving Tailwind CSS/Sass, including client-side form validation. • Focused on usability, responsive design, and consistent user experience across web pages.

PROJECTS	
Virtual Herbal Garden	• Developed a responsive web application focused on medicinal plants, herbal information, and user-friendly access to plant-related content, using Tailwind CSS. • Designed responsive plant cards and structured information sections, plus an interactive quiz feature to improve user engagement.
Cosmetic Store Management System	• Designed a management system covering inventory, products, suppliers, POS, expiry alerts and reporting. • Planned admin and user workflows with database-oriented design, billing workflow, customer record management and system documentation.
Earthquake Early Warning - AI/DL	• Proposed an AI/DL-based earthquake early-warning system using seismic waveform data. • Explored regional seismic datasets and deep-learning approaches for rapid event detection.

CERTIFICATIONS	
Google Cloud Computing Foundation	Issued by NPTEL.
Fundamentals of Machine Learning	Issued by Microsoft Learn.
Fundamental AI Concepts	Issued by LinkedIn Learning.
Pwskills Masterclass	Completed the Pwskills Masterclass.

ACHIEVEMENTS & ACTIVITIES	
Hackathon & Activities	- Participated in a 12-hour offline hackathon, 'Greeks of Gurukul', gaining hands-on exposure to Web3 and blockchain. - Continuously developing skills in C++, DSA, Web Development, AI/ML and Generative AI.

EXPERTISE AREA	
Languages Known	English, Hindi
Strengths	Quick Learner, Problem Solving, Team Collaboration, Communication Skills
Hobbies & Interests	Programming, Web Development, AI/ML, Cricket, Gaming, Traveling, Movies
Weight/Height	
Date of Birth	
Parent's Name and Contact Number	
Address (Correspondence and Permanent)	

DECLARATION

I declare that the above details are true to the best of my knowledge.

(Lakshman Sharma — Signature with date)
